

Technetix custom toolkits

- › Convenient and fully configurable
- › For field techs, construction crews and CPE technicians
- › Quality brands
- › Simple reordering

Overview

If you are looking for the right tools for the job, Technetix offers dozens of options: purchase them separately or have them packaged in convenient, configurable kits.

Kits can be configured for field techs and construction crews, as well as for CPE technicians installing and troubleshooting drops, home networks, video devices, telephone services and security systems. Choose from hand tools, power tools, specialty tools, test sets, safety equipment and accessories.

Technetix stocks quality brands from manufacturers you trust like Makita, DeWalt, Klein, Ripley, Arrow Fastener and more.

Here's the drill:

Choose from Technetix' standardized kits or design your own. Toolkits from Technetix help simplify the purchasing process, allow operators to track tools in the field and enable easy reordering of the appropriate kits using a single part number as new employees are hired. Don't forget bags, belts, gloves and safety glasses.

Technetix has everything you need, just the way you need it.

Explore Technetix' toolkit selection and contact us to discuss the perfect solution for you.

List is representative and not all-inclusive. Contact Technetix if you need products that are not on this list.
