What does orchestration mean? definition, meaning and ...

Orchestration is the study or practice of writing music for an orchestra (or, more loosely, for any musical ensemble, such as a concert band) or of adapting music composed for another medium for an orchestra. Also called "instrumentation", orchestration is the selection of different instruments to play the different parts (e.g., melody, bassline, etc.) of a musical work.

Orchestration - Wikipedia

In music, an arrangement is a musical reconceptualization of a previously composed work. It may differ from the original work by means of reharmonization, melodic paraphrasing, orchestration, or development of the formal structure. Arranging differs from orchestration in that the latter process is limited to the assignment of notes to instruments for performance by an orchestra, concert band ...

A musical transcription is musical notation for an existing piece of music that had been previously unnotated. Musicians often disagree about what should be called a "transcription" and what is an "arrangement". Usually transcriptions are a direct notation of the source, whereas a musician who makes an arrangement may insert new interpretations into the music (i.e. changing the ...

Verse and Chorus structures. This is a very common pop song structure. It consists of a series of verses (usually two or three), interspersed with a refrain (chorus), and often with an instrumental break towards the end of the song. A chorus usually contrasts with a verse harmonically, melodically, lyrically and by the way that it is arranged.
